LeetCode: [pCZV5bZzWE](https://leetcode.com/pCZV5bZzWE) - [LeetCode Profile](#)

CAREER OBJECTIVE

Aspiring Data Science Intern with knowledge of Python, SQL, data analysis, and data visualization. Hands-on experience in data cleaning, exploratory data analysis (EDA), and working with structured datasets to solve analytical problems. Passionate about extracting insights from data and building data-driven solutions. Interested in predictive modeling and statistical analysis, with a strong willingness to learn and grow in the field of data science

EDUCATIONAL QUALIFICATION

- **Bachelor of Engineering – Artificial Intelligence & Machine Learning**
CMR Institute of Technology, Bengaluru
CGPA - 7.05, 2027 (Pursuing)
- **Diploma in Engineering - Computer Engineering**
Kashmir Government Polytechnic College, Srinagar
Percentage - 76.6 %, 2024
- **10th Grade (JKBOSE)**
S.R.M Welkin Higher Secondary School, Sopore
Percentage - 87.6 %, 2021

TECHNICAL SKILLS

- **Programming Languages:** Python, Java, SQL
- **Databases:** MySQL
- **Data Visualization:** Tableau, Power BI
- **Tools & Platforms:** Git, GitHub, VS Code
- **Operating Systems:** Windows, Linux
- **Web Technologies:** HTML, CSS

Soft Skills

- Analytical Thinking
- Problem Solving Skills
- Effective Communication
- Team Collaboration
- Time Management

Experience

Data Science Project – Path Finding Visualization

- Developed and implemented multiple path-finding algorithms including Dijkstra, A* and BFS to demonstrate route optimization techniques
- Built an interactive React-based web application for real-time visualization of algorithm performance.
- Designed and integrated all algorithms independently, ensuring scalability and smooth functionality.
- Improved user understanding by providing comparative visual simulations of different algorithms

Full Stack Web Developer – NOC Certificate Management Website

- Designed and developed a web-based platform enabling students to apply online for NOC certificates through a structured digital form

- Implemented data validation and verification workflows to ensure accuracy and authenticity of submitted information
- Built a secure system allowing approved applicants to download their NOC certificates online in real time.
- Focused on user-friendly interface design and smooth navigation to improve accessibility and user experience
- Strengthened understanding of full-stack development concepts, form handling, and database integration

Full Stack Web Developer – Medical Booking Platform

- Designed and developed a web-based medical platform enabling patients to book online diagnostic tests with specific doctors based on available dates and time slots.
- Implemented appointment scheduling and availability management to streamline doctor–patient coordination
- Built a secure module allowing users to download medical test reports online after verification
- Focused on data validation, user authentication, and responsive UI design to ensure reliability and accessibility
- Enhanced understanding of database management, form handling, and full-stack web development concepts

CO-CURRICULAR ACTIVITIES & EXTRA CURRICULAR ACTIVITIES

Certification

- Python and Django Framework with HTML5 Stack – Udemy
- Microsoft Azure Administrator Course - Udemy
- Master JavaScript, HTML, and CSS with 30 Projects in 30 Days - Udemy

PUBLICATION

Navigating Efficiency: Evaluating Routing Algorithms for Real-Time Applications

Unpublished Research — Submitted to IEEE Conference (2025)

- Co-authored a comparative research study analyzing routing algorithms including A*, Dijkstra’s, Greedy Best-First, and Bi-Directional Search for real-time use cases
- Designed and developed an interactive route-optimization system with source–destination inputs and spatial buffer configuration.
- Conducted performance evaluation based on execution time, path accuracy, and convergence speed; findings indicated Greedy Best-First Search achieved the fastest convergence, while A* and Dijkstra’s consistently produced optimal paths.
- Highlighted practical applications in navigation systems, logistics optimization, and smart vehicle technologies.

PERSONAL DETAILS

Date of Birth	: 20-07-2006
Gender	: Male
Nationality	: Indian
Permanent Address	: Sidiq Colony Bye Pass Sopore, Baramulla, Kashmir - 193201
Linguistic Competency	: English, Hindi, Kashmiri
Hobbies	: Travelling, Exploring New Places, Trekking, Cricket
